4. Consequences in case of violations

Actief considers compliance with the requirements formulated in this Code of Conduct as essential for the respective business relationship. If a business partner does not comply with these requirements, Actief reserves the right to take appropriate legal steps up to the termination of the business relationship.

It is in Actief's discretion to waive such consequences and to take alternative measures instead, if the business partner credibly assures and can prove that he has immediately initiated countermeasures to prevent future similar violations.

5. Reporting violations

Business partners are obliged to set up an effective complaints procedure. The use of the whistleblowing system must be subject to confidentiality and be accessible to all employees.
